

Hello!

We hope you're having a great month. It's been a busy one here at Sky-House Co and we can't wait to update you on what's been happening.

Oughtibridge Mill wins 'Sustainable Development of the Year'

We are thrilled to announce that our multi-award-winning development Oughtibridge Mill has just won 'Sustainable Development of the Year' at the South Yorkshire Property Dinner 2022.

Sustainability and future-proofing our homes are of the utmost importance to us. Our 'gentle density' approach means that we are naturally sustainable in how we build. Our back-to-back homes are more economical as they optimise the building space so we can make the most of the land.

Unlike big housing developers, we build in locations where it's not necessary for our residents to drive - though those who do enjoy private car parking spaces and EV charging as standard.

We also create pocket parks, community gardens and a variety of private amenity spaces for our residents to enjoy and natural habitats to thrive.

We champion a zero gas approach, with solar panels and eco-friendly MEV indoor heat pumps included in all of our new build properties as standard. Swift bricks have been incorporated into the building fabric and bat boxes are on site to support the local wildlife.

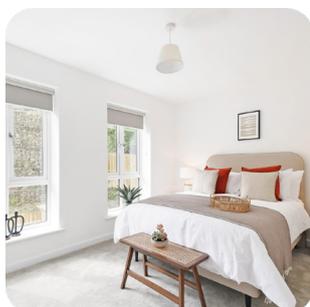

Last chance to reserve an off-plan home at Oughtibridge Mill & Waverley Phase 2

Our homes are selling out faster than we anticipated and we have just one off-plan home left for both Oughtibridge Mill and Waverley Phase 02.

Reserving a home off-plan allows you to take advantage of some amazing discounts and get a new home at the best possible price.

We have some amazing incentives available for anyone who reserves in August. [Get in touch with our sales team today](#) to find out what's on offer!

Fox Valley is now completely sold out!

Last month we shared a [3D virtual tour of our Fox Valley show home](#) - we're happy to say that the development, which is our most eco-friendly to date, is now completely sold out! Our show home showed prospective buyers how beautiful living in our homes can be. If you're interested in our other developments, we'd recommend that you watch it to get a feel for of Sky-House living.
